

Quick Poll – Information Desk Hours

The information desk should be open the same hours as the library itself - we should be able to get answers to our questions anytime!!

I really don't use the information desk!

I feel that the library in general has poor hours on weekends. On Friday and Saturdays it should be open until 8 or 9pm and until midnight on Sunday evenings. I did my undergrad at a very small university (under 2000 students) and they were open until midnight every night of the week.

The hours right now serve me quite well.

the newfoundland studies should be open at an earlier time

I believe that as long as the library is open so should information services..They are a key part of the library in helping the students..

I believe the library should be open earlier.
